Education

Gisma University of Applied Sciences Potsdam, Germany
B.Sc. Computer Science 2024 – 2028[cite: 1]
• Relevant Coursework: Computer Science Lab (B201), Data Structures & Algorithms, Software Engineering[cite: 1].

Projects

Technical Portfolio Website & Git Repository [GitHub Project](#)

- Developed a computer science portfolio website deployed via GitHub Pages as part of the individual project coursework[cite: 1].
- Engineered and structured a well-documented Git repository displaying technical exercises and academic assignments[cite: 1].
- Generated a comprehensive implementation report written completely in LaTeX adhering to the academic standards outlined in the B201 Assessment Brief (4).pdf[cite: 1].

Core Computing Project [GitHub Repository](#)

- Designed an application to demonstrate clean software architecture, programmatic testing, and functional code documentation.

Technical Skills

Languages: Python, Java, C++, SQL, HTML/CSS, JavaScript

Tools & Technologies: Git, GitHub Pages, LaTeX, Docker, Linux[cite: 1]

Core Methodologies: Object-Oriented Programming (OOP), Agile Development, Software Lifecycle Documentation
